Think Big, Aim High

...and do something great!

It's hard, of course. But it's worth it!

# The Pyramids [~2600 SM]

# Parthenon [~450 SM]

# Colosseum [~80 M]

# Borobudur [Abad IX]

# Eiffel Tower [1889]

How about personal work?

# Pythagoras [~550 SM]

## T H E O R E M.

“ In any right-angled triangle, the square  
“ which is described upon the side subtending the  
“ right angle, is equal to the squares described  
“ upon the sides which contain the right angle.”

## The D E M O N S T R A T I O N.

In geometrical solutions, and demonstrations of quantities, this proposition is of excellent use, and the example is held by us as a memorial of Pythagoras.

# Euclid's Elements [~300 SM]

Newton's  
Principia  
Mathematica  
[1686]

# Einstein's Formula $E=mc^2$ [1905]
